Tropical Holiday. 1 sound disc \$14.98
 Accent ©2018 EUCD 2801 2 5019396280120
 Let yourself be whisked away on a Tropical Holiday with music from around the Caribbean- Haiti, Martinique, Costa Rica, Trinidad & Tobago, and other island nations. Put your sunglasses on and get into the summer mood with irresistible dances. The cumbia is perhaps internationally the best-known form of music and dance from Colombia. It has African roots with a great deal of Spanish and Indian influence. In fact, Colombians consider the cumbia to be the meeting place of these three cultures. It's pace makes it one of the most danceable styles found within South America. Another well-known dance featured on this album is the salsa. Since the salsa's appearance in the early 1960s, it's impact and planet-wide expansion has been phenomenal. Broadly speaking, salsa is essentially an urban, popular dance music with deep roots in Cuban music. It's origins have been traced back to two main styles still heard in Cuba today: the Spanish influenced guajira and the Afro-Cuban son.

African Journey : Music From Cairo To Capetown. 1 sound disc \$14.98
 Arc Records ©2018 EUCD 2811 2 5019396281127
 This album begins its journey in Egypt, where the music has a distinctly Middle Eastern and Arabic influence, being at the crossroads of Africa and Asia. These influences stretch across much of the Sahara, through Libya, Algeria, Tunisia and Morocco. The call-and-response style, as is found in much of the gnawa music of Morocco, begins to introduce to the listener something more familiar to Western ears. As the album approaches Western Africa we uncover the ancestry of blues music, which became the foundation of most Western popular music. The Western African influences in blues music are unmistakable and are explored enthusiastically by these West African artists. Along the southern coast of Western Africa, and heading into central Africa, a noticeable percussive style takes over. Drumming in these parts of Africa is an ancient, often tribal, tradition that continues to this day. We travel next to Eastern Africa and Sudan, a country with a long and turbulent history that has seen its religion and politics influence its music in many ways. Sudanese music went through something of a renaissance in the early-mid 20th century and the song included here is from that period. Lastly, moving south, we hear guitar music, percussion, and above all vocals taking center stage.

 Arc Records ©2018 EUCD 2812 2 5019396281226
 India is undoubtedly one of the most breathtakingly beautiful and culturally rich countries on Earth. From the rising Himalayas in the north to the tropical climes of it's southern cape, India is a country of many contradictions... and not just in it's landscapes. For every palace boasting of wealth and decadence, there are communities stricken by poverty. For every people fighting to keep hold of their centuries-old traditions, there are those striving to make India a leader in today's modern world. As one would expect, the music of India is likewise variable. An ancient country of such pronounced cultural differences cannot fail to have a vast musical tradition full of similar riches. Indian Vistas is a collection of musical sceneries of India, showing this stunning country in many different- and always enchanting- lights.

Exploding In Sound**Pile.**

Green and Gray. 1 sound disc \$13.98
 Exploding In Sound ©2019 EISD 93 2 843563114278
 Since Pile's original formation eight years ago, the Boston rock band has released over five critically acclaimed albums, a compilation of rarities and live record. *Green and Gray* is the bands latest and undeniably most dynamic record, exploring just how heavy and soft they can get within the span of an album. Recorded with Kevin McMahon (Swans, Real Estate), Pile have created a record focused on the personal self and the idea of aging within the confines of a rock band. It's a self exploration about relationships that have suffered to a consistent work ethic and tour schedule. The writing was driven by prolonged sessions of activity, with weeks at a time spent constructing the album and it's four distinct sections, each represented by their own side of the double LP. Their latest triumph encapsulates and expands on the music that has gathered them a cult following thus far. *Green and Gray* is further proof that Pile is one of the most interesting current rock bands.

Sounds Portraits From Bulgaria : Journey To A Vanished World. 2 sound discs \$49.98

Smithsonian Folkways ©2019 SFW 58725 2 093074058725

Between 1966 and 1979, educator and cultural documentarian Martin Koenig made half a dozen trips to Bulgaria. Working in villages throughout the country, Koenig filmed, recorded, and photographed the lively, yet endangered, aspects of Bulgaria's traditional culture. The results are indelibly gathered in Sound Portraits from Bulgaria: the vibrant rural life he experienced, the virtuosic musicians and dancers he met, the extraordinary music they made, and the joyous rituals and festivals he witnessed. This collection celebrates a way of life that has largely vanished due to industrialization, technology, globalization, and emigration. 109 minutes of music in 2 CDs -- 144-page book with photographs and extensive bilingual notes.

Our Native Daughters.

Songs of Our Native Daughters. 1 sound disc \$16.98

Smithsonian Folkways ©2019 SFW 740232 2 093074023228

Songs of Our Native Daughters gathers together kindred musicians Rhiannon Giddens, Amythyst Kiah, Leyla McCalla, and Allison Russell in song and sisterhood to communicate with their forebears. Drawing on and reclaiming early minstrelsy and banjo music, these musicians reclaim, recast, and spotlight the often unheard and untold history of their ancestors, whose stories remain vital and alive today. The material on Songs of Our Native Daughters / written and sung in various combinations / is inspired by New World slave narratives, discrimination and how it has shaped our American experience, as well as musicians such as Haitian troubadour Althierry Dorval and Mississippi Hill Country string player Sid Hemphill, and more.

Rubberband. 1 sound disc \$16.98
 Warner Brothers Records ©2019 WB 599464 2 603497850785
 Miles Davis shocked the music world in 1985 when he left Columbia Records after 30 years to join Warner Bros. Records. In October of that year, he began recording the album Rubberband in Los Angeles at Ameraycan Studios with producers Randy Hall and Zane Giles. The musical direction Davis was taking during the sessions marked a radical departure, with the inclusion of funk and soul grooves; with plans to feature guest vocalists Al Jarreau and Chaka Khan. Eventually, the album was shelved and Davis went on to record Tutu, leaving the Rubberband songs unheard and untouched for over 30 years. It was finished by the original producers Hall and Giles; with Davis' nephew, Vince Wilburn, Jr., who played drums on the original sessions for the album in 1985-86.

Winter & Winter

Istanbul : Between Orient and Occident. 1 sound disc \$18.98
 Winter & Winter ©2018 WNTR 910249 2 025091024926
 Istanbul is the interface between orient and occident. The noises and urban sounds in connection with Turkish, Armenian, Kurdish and Macedonian songs as well as nomad chants belong to the culture of Istanbul like the centuries old architecture in the city. Some notable artists featured on this album include Volkan Yilmaz, who was born in Istanbul and studied at the Istanbul Conservatory under Fuat Tokelmen and Salih Bilgin and began his career as a soloist at the radio station Istanbul TRT, Gulay Diri, who was born in Southern Turkey where semi-nomadic people continue their lifestyle and she was influenced by their folk music, and Muammer Ketencoglu, who is an internationally renowned musician and one of the foremost Turkish artists performing today. These are folk songs, modern compositions, nomadic chants, and improvisations, all brought together to paint an aural portrait of this ancient city.
